Flint, Mi

Dear Rick,

I thought I would drop you a line to tell you how impressed we have been with several of your products which we have been using for the last two years.

First, your Ultra Seal tire sealant has decreased our down time on all our mowers and tractor due to flat tires by 90%. There have been times when we have made it through the entire summer without a flat tire. That is a lot of road time and tire repair expense saved.

We have been using your Powergel to clean engines and other oil cover areas with great success. By being a concentrate a little goes a long way and we are pleased that it is non-polluting.

Keep up the good work and best of luck.

Sincerely

Dennis Graczyk
