Mr. Richard Waddington  
Ultrasal Southeast  
1838 Circle Drive  
North Palm Beach, Florida 33408

Dear Mr. Waddington:

I would like to take this opportunity to thank you for introducing Ultrasal Tire Life Extender, to my company.

As you were aware, Palmer Construction & Renovation, L.L.C. was having problems with our fleet of on and off road construction vehicles, due mainly to tire wear caused by under inflation, and punctures. Since installing Ultrasal in our fleet, we no longer have to deal with the excessive "down time" associated with tire maintenance and repairs. As you know, construction sites are filled with opportunities for tires to get punctures. Since installing Ultrasal, we no longer get flats but we still pull nails and screws from the tires!

Again thank you for introducing us to Ultrasal. We have found it to be real benefit to our operation.

Sincerely,  
PALMER CONSTRUCTION & RENOVATION, LLC

William A. Palmer  
Managing Owner
