MESSAGE:

Per your request please review the following information about our racing efforts:

Our first off-road race was the Fireworks 250 in July of 1977. In 1986, we formed our own team specifically with winning races in mind. Our results have been very good with 22 race wins in Class 10 (four of those were also overall victories, besting the unlimited cars and the unlimited trucks) and 2 series championships. In all of our wins we used Ultra Seal in our race tires and spares. (20 tires at each race.)

Your product has been a key component in our victories. As the norm with racing, any support or discounts you might offer us would be greatly appreciated. Our current needs are a new pump and a 5 gallon pail of sealer. Please fax a price to us and we will fax our order.

Thanks for your support,

A handwritten signature in black ink, appearing to read "K. McGillivray", is written over the typed name below it.
