Los Angeles, Ca. 90038

Dear Liz

Recently I installed the New Blue Ultraseal in two vehicles and wanted to take a minute and give you my experience.

The vehicles involved were a 1990 Lumina APV with new tires and a 1996 Dodge Caravan with older tires.

First I drove the vehicles to familiarize myself with the steering and ride. Next the recommended amount of Ultraseal was installed and once again I drove the vehicles at various speeds and on different type roads and at no time did I detect the Ultraseal. There was absolutely no balance problem.

Liz, I would like to congratulate you on another excellent product.

Sincerely

Pat Baird
